TEXTURES

ArtAffresco workshop presents a wide range of materials that seamlessly fit in to any interior.

Besides the simplicity and ease of application, this type of decorative coating is highly aesthetic, and with minimal costs it allows you to turn your walls into real works of art.

ArtAffresco offers its customers only the best.

All the materials we use are handmade by our craftsmen. Each mural sheet is unique and individual.

LIGHT

Light's rough texture gives the feeling of fine velvety sea sand. The thickness is about 1 mm.

The maximum size of a single mural sheet is 2.65x20 metres.

The base is non-woven fabric. The covering is decorative plaster.

CRACK (S\G)

A very dense texture made from several layers of plaster with random deep cracks running along its entire surface.

It gives the mural an aged look and is perfect for classical subjects.

Partial or complete white floating of cracks is possible (the floating can be silver or gold).

The thickness is about 3 mm. The maximum size of a single mural sheet is 2.65x8 metres.

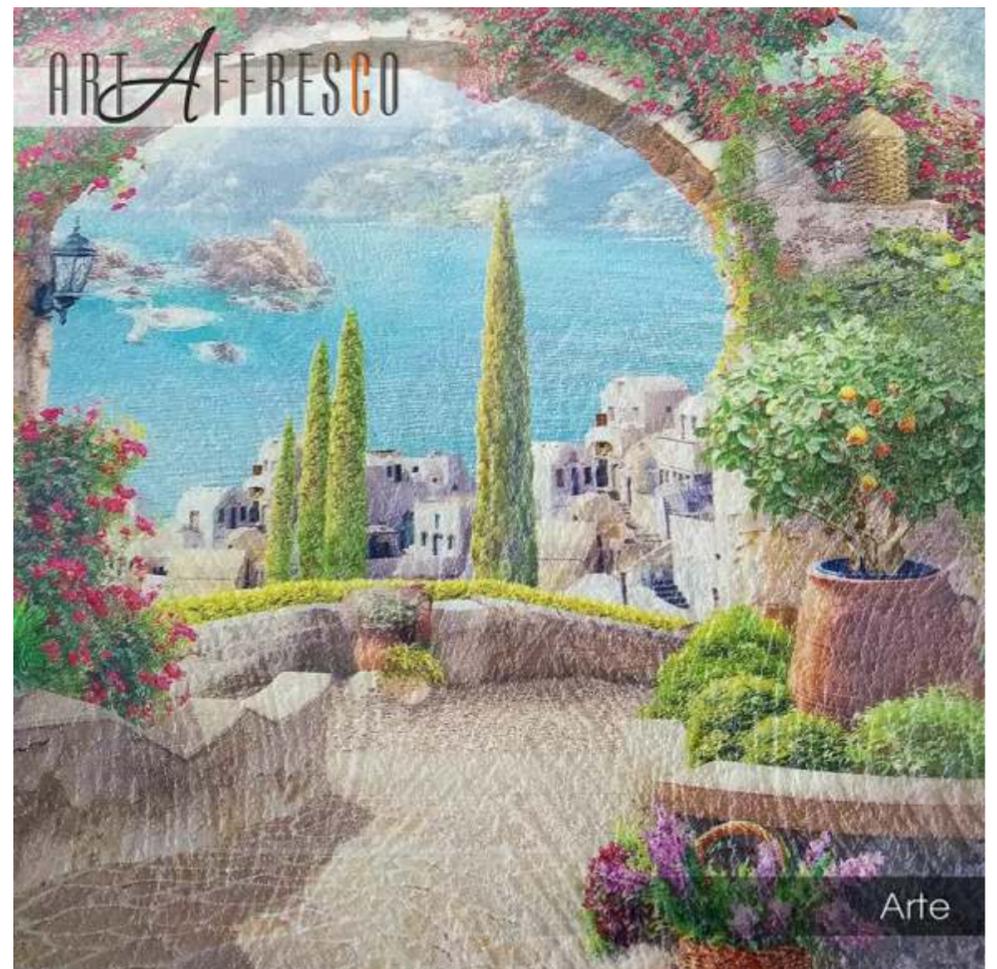

The base is non-woven fabric. The covering is decorative plaster.

ARIA

A lightweight, airy medium density material that consists of two layers. The first is shimmery smooth, the second is voluminous, chaotic islands that produce a characteristic texture. The thickness is 1 mm. The maximum size of a single mural sheet is 2.65x8 metres. The base is non-woven fabric. The covering is decorative plaster.

ARTE

The texture resembles a painting. The plaster is applied in a circular motion, which gives the material a certain lacy airiness. The thickness is about 1.5 mm. The maximum size of a single mural sheet is 2.65x8 metres. The base is non-woven fabric. The covering is decorative plaster.

DUNA

A smooth, versatile material with good density and colour rendering. The thickness is about 2 mm. The maximum size of a single mural sheet is 2.65x8 metres. The base is non-woven fabric. The covering is decorative plaster.

POLARIS

A texture with a delicate relief and two layers: a noble shimmer and a light matte coating with a satin shine breaking through. The maximum size of a single mural sheet is 2.65x8 metres. The base is non-woven fabric. The covering is decorative plaster.

FARFOR (S/G)

A dense texture with graceful decorative cracks running along its smooth surface.

It resembles the delicate spread of lines on glossy porcelain.

A thin web of cracks gives the fresco an additional piquancy (the floating can be silver or gold).

The thickness is about 2 mm. The maximum size of a single mural sheet is 2.65x8 metres.

The base is non-woven fabric. The covering is decorative plaster.

VERNIS

The texture resembles the chaotic strokes of a wide brush, making the material aesthetically pleasing and artistic. The thickness is about 1-1.5 mm. The maximum size of a single mural sheet is 2.65x8 metres. The base is non-woven fabric. The covering is decorative plaster.
