ATMOSFERA CREATIVA

acquapazza è un brand italiano dell'arredo bagno. Il suo prodotto unisce gusto design e funzionalità. **acquapazza** nasce da un'idea di Bruna Buglione, il suo carisma è il valore aggiunto e l'energia di questo brand. Passione per il design e cura smisurata per la soddisfazione del cliente si riflettono in tutti coloro che fanno parte del suo team, professionisti che lavorano con rigore estremo in un' atmosfera informale.

creative atmosphere

acquapazza is an Italian Bathroom furniture brand. Their products combine taste, design and functionality. acquapazza was created by Bruna Buglione and her charisma is a valid addition and the driving energy of this brand. All her team thrive on their passion for design and extreme care to satisfy their clients needs and requests. Highly professional individuals who work with thorough rigour in an informal atmosphere.

La missione di **acquapazza** è la produzione seriale di qualità.
Elementi altamente performanti e finemente rifiniti realizzati attraverso un'alternanza di lavorazioni meccaniche e finiture manuali. La grande possibilità di personalizzazione, espressa attraverso materiali, finiture, colori e modelli, permette di sviluppare un'idea di arredo assolutamente su misura. La produzione di **acquapazza** è affidata alla bsolid srl, storico laboratorio Corian®, sito industriale all'avanguardia.

acquapazza's mission is a high quality modular production.
Highly performing elements and elegantly refined made through an alternating process of mechanical operations and manual finishing touches. The vast possibility to personalize their products through the use of materials, finishing touches, colours and models, allows a them to develop and furniture concept which absolutely tailor made.
acquapazza's production is looked after bsolid srl, a well-established Corian® laboratory and an avant-garde industrial site itself.

"Ogni progetto è pensato intorno al benessere dell'uomo,
creiamo prodotti che contribuiscono al piacere di vivere la quotidianità"

"Every project is conceived around health and well-being,
we create products which contribute to the everyday life pleasures"

COLLEZIONI

"L'eleganza è la sola bellezza che non sfiorisce mai"
cit. Audrey Hepburn

Le collezioni di **acquapazza** nascono e mutano in uno spazio indefinito e senza tempo.
Ogni collezione nasce da una Mood board: una tavola che raccoglie suggestioni per restituire l'atmosfera e lo stile di un progetto.
Materiali opposti ma complementari tra di loro, dai tecnologici Corian® Solid Surface e Fenix® alle finiture più tradizionali in tranciato di legno naturale e laccature opache anche su piani tridimensionali, si armonizzano per creare le nostre collezioni.
Non esiste un limite alla creatività... play with matter

COLLECTIONS

"Elegance is the only beauty that never fades"
cit. Audrey Hepburn

acquapazza's collections arise and turn in an indefinite and timeless space.
Every collection is conceived from a Mood board: that collects suggestion giving back to the projects athmosphere and style.
Opposite and complementary materials, from the technological Corian® and Fenix® to the most traditional natural wood matt lacquers 3d finishis, come together to create our collections.
There is no limitation to creativity... play with matter

PURO

Un ritorno alle origini per **acquapazza**, PURO una collezione incentrata esclusivamente su Corian® Solid Surface, eccellente punto d'incontro tra tecnologia ed estetica.
Un unico materiale con cui progettare tutto l'arredo bagno: basi, pensili e colonne in Corian® hanno ante a tutto spessore (sp.12mm) e gole con una sofisticata lavorazione "a guscio" che ne garantiscono la perfetta ergonomia nella presa e una robustezza illimitata nel tempo.
Lavabi integrati o soprapiano, piatti doccia e vasche, ed una vasta gamma di accessori, rappresentano un sistema completo di arredo.
22 le finiture disponibili, dall'intramontabile minimalismo del Corian® degli anni 80, ai colori pieni dei toni caldi, al maximalismo delle lastre decorative.

A return to the origins for **acquapazza**, Puro a collection focused exclusively on Corian® Solid Surface, the excellent fusion between technology and aesthetics. A single material to design all the bathroom furniture: Corian® bases, cabinets and columns with slim doors (sp.12mm) and sophisticated shell grooves.
Integrated and over counter washbasins, shower trays and bathtubs combined with the wide range of accessories, represent a complete system of furniture.
22 available finishes, from the minimalism of the 80's Corian® colors through the warm tones until the maximalism of decorative sheet.

PROGETTO PRISMA | PRISMA PROJECT

COLLEZIONI
PURO | progetto PRISMA

Il progetto PRISMA si caratterizza per la capacità del Corian® di riuscire a plasmare e avvolgere l'intero ambiente con linee nette e taglienti.

Prismatici e multisfaccettati, gli elements riescono a catturare luci e ombre pure che accarezzano la materia e le restituiscono una tridimensionalità unica.
Sembra annullarsi il confine tra il classico e il contemporaneo, forme e colori decisi che contraddistinguono l'ambiente definendo il carattere puro di uno stile inconfondibile.

In scena un progetto di studio su materia e colore emozionale, attraverso la ricerca di nuance e accostamenti capaci di restituire energia e dinamismo, benessere e bellezza: una palette cromatica che unisce il colore delle pitture decorative Wilson & Morris alle finiture del Corian® per creare la giusta armonia.

PRISMA project is characterized by the ability of the Corian® to forge and to embrace the whole environment with clean and sharp lines. Prismatic and multifaceted, the elements capture pure light and shadow that caress the matter and give it a unique three-Dimensionality.
Classic and contemporary style blend together harmoniously, Strong shapes and colors that characterize the mood of the environment defining the pure character of a unique style.
On stage a study project on matter and emotional color, trough the research of nuance and combinations to create a perception of energy and dynamism, wellness and beauty: a chromatic palette that combines the Wilson & Morris decorative paints to the Corian finishes to establish the right harmony.

PROGETTO CUBE | CUBE PROJECT

Il progetto CUBE si focalizza sul sistema vasca | doccia in continuità. Nasce dal voler esprimere al meglio l'essenza della vasca Cubica, vera protagonista della scena.

Cubica, Icube freestanding e piatto doccia Slide sembrano slittare nel sistema Fun&Funny che li attraversa e li tiene uniti in un gioco di volumi pieni e vuoti.

Le linee cubiche, nette e precise sono esaltate dal fondo Red Wood Plank e dal pavimento Tile Ten, nuance nei colori della terracotta firmate Wilson&Morris che si incontrano con i toni Concrete Carbon, Neutral e Weathered Corian® Solid Surface quasi come in una sfumatura omogenea.

CUBE project focuses on the system of bathtub | shower
It arises from the desire to express at best the essence of the Cubica bathtub, the real main character on the stage.
Cubica, freestanding Icube and Slide shower tray seem to slide in the Fun&Funny system that crosses and holds them together in a play of solids and voids.
The cubic lines, clean and precise are enhanced by Red Wood Plank bottom and from the Tile Ten floor, nuance in the colors of terracotta of Wilson&Morris that collide with Concrete Carbon, Neutral e Weathered Corian® tone as in a nice gradient.

PROGETTO OIDE | OIDE PROJECT

Il progetto OIDE è caratterizzato da un'orizzontalità della scena.
La vasca Oide è la protagonista morbida e accogliente che galleggia in uno scenario marcato da linee orizzontali che tagliano lo spazio dando il giusto peso ad ogni elemento.
La scelta cromatica dei colori per le pareti e pavimenti ricade sulle nuance dei toni verdi duck egg e green tail delle pitture decorative Wilson & Morris che esaltano il White Onyx e il Glacier White Corian® Solid Surface.

La presenza decisa del Deep Nocturne crea un accento che stabilisce equilibrio all'ambiente dando personalità alla composizione.

La linea infinita del sistema Fun&Funny raccorda tutti gli elementi in scena facendo da collettore.
Un progetto che approfitta delle eccellenti performance del Corian® Solid Surface e al contempo mette in risalto colore e materia.

OIDE project is characterized by the horizontality of the scene.
Oide bathtub is the soft and cozy protagonist of the scenario marked by horizontal lines that rip the space giving the right weight to each element. The chromatic choice of colors lies with the nuances of Duck Egg and Green Tail Green tone of Wilson & Morris decorative paints that exalt the White Onyx and the Glacier White Corian®.
The strong presence of Deep Nocturne establishes a balance to the environment giving strong identity to the project.
The line of the Fun&Funny system connects all the elements in the scene. A project that takes advantages from the excellent performance of Corian® and exalting colors and matter.

PROGETTO 36 | 36 PROJECT

Il progetto 36 si caratterizza per essere espressione dell'incontro di due elementi opposti.

La vasca Trenta6bathtub® è Il gioiello di famiglia ispirata al mito degli androgini di Platone e omaggio alla donna Ceo di **acquapazza** Bruna Buglione,
Disegnata dall'architetto Natale Fortino Rinaldi, realizzata interamente in Corian® Solid Surface, è caratterizzata da una superficie sinuosa ottenuta per termoformatura che si fonde ad un setto dalle linee squadrate.

Una collezione dalle linee morbide esaltate dall'espressione monumentale della finitura Smoke Drift Prima Corian® che incornicia la scena.
Bianco assoluto e luce artica restituiscono un ambiente elegante e armonioso dal carattere unico e puro.

36 project is the expression of the indiscernible fusion of two opposing elements.
The Trenta6bathtub® is the family jewel inspired by the myth of the androgynies of Platone and tribute to the woman CEO of **acquapazza** Bruna Buglione. Designed by the Architect Natale Fortino Rinaldi, made entirely in Corian®, is defined by a sinuous surface obtained by a thermoforming process that blends into a septum with squared lines. The Corian is taken to the extreme of his performance.
A collection of soft lines enhanced by the monumental expression of Smoke Drift Prima Corian® finish that frames the scene. Absolute white and arctic light create an elegant and harmonious atmosphere defining a unique and pure character.

PROGETTO RADIUS | RADIUS PROJECT

In scena la palette di colori e texture fa da protagonista.
Verdant, athena ed elegant grey esaltano la tessitura del Dune Prima Corian® Solid Surface e danno carattere al progetto RADIUS che si contraddistingue per la precisione e l'attenzione estrema al dettaglio.

Solo un occhio attento coglie la sensibilità dei raggi minimi di curvatura che permettono una linearità perfetta delle forme leggermente ammorbidite e sulle quali la luce scivola delicatamente senza creare contrasti di ombre.

Il colore è usato per sottolineare, dare accento e creare stacchi cromatici che restituiscono volumetria alla composizione neutra di fondo.

Color and texture's palette is the protagonist of RADIUS project.
Verdant, Athena and Elegant Grey enhance the texture of the Dune Prima Corian® and give a personality to the RADIUS project that is defined by precision and extreme attention to the detail. Only a keen eye can catch the sensitivity of the minimum bend radius on which the light gently slips without any shadow contrasts.
The color is used to emphasize and create contrasting colours to the back ground volume
.

PROGETTO CIRCLE | CIRCLE PROJECT

Il progetto CIRCLE è l'espressione della purezza del Glacier White.
Caratterizzato dalle forme circolari, "linee organiche" per eccellenza che suggeriscono dinamicità e movimento.

Superfici morbide e accoglienti anche per il doppio lavabo da terra freestanding ITube. Quasi a volerli far lievitare, gli elementi sono appoggiati su un pavimento a contrasto che esalta il total White e li incornicia rendendoli ancora più Puri.

La linea infinita del sistema Fun&Funny accompagna gli elementi in scena e chiude la prospettiva verso i due specchi Ovoide.

CIRCLE project is the expression of the purity of Glacier White.
Marked by circular shapes and organic lines suggest dynamism and movement.
Soft and cozy surfaces even for the double freestanding washbasin iTube, combined with the new Ovoide mirror are completed by the line Fun&Funny system. Like in a frame Glacier White Elements rise contrasting by the floor.

ELEMENTS

CORIAN®
SOLID SURFACE

La gamma ELEMENTS racchiude complementi e accessori bagno realizzati esclusivamente in Corian® Solid Surface. Tutti i prodotti sono progettati in ogni singolo dettaglio e testati all'interno del nostro laboratorio di produzione, partner decennale di DuPont™.
Il processo di lavorazione vede coesistere due fasi molto diverse tra loro ma complementari: il taglio con cnc garantisce la precisione millimetrica di ogni manufatto prodotto, la finitura manuale, affidata alle mani di artigiani specializzati, rende possibile il reale controllo qualità di ogni singolo pezzo.

The collection of elements includes bathroom accessories made in Corian® Solid Surface.
All products are analyzed in every single detail and tested in our production department, a certified DuPont™partner.
The manufacturing process sees two very different but complementary phases coexist. The cnc cutting guarantees the millimeter precision of each manufactured product. Specialized craftsmen are entrusted with the manual finishing, making possible the real quality control of each single piece.

ELEMENTS | TOP da base

I top da base in Corian® Solid Surface: Slim, Slim Plus, Mid, Mid plus e Maxi hanno diversi spessori e tipologie di frontale. I top da base possono essere completati con i lavabi e le ciotole. Mid plus e Maxi possono abbinarsi con gli accessori Pocket frontale e asola.

PLAY with matter

PLAY with Matter è un sistema di arredo che nasce dal Dna di **acquapazza**: la sartorialità, Un gioco che inizia fin dalla progettazione che il brand offre, e si esprime attraverso le molteplici forme dalle geometrie essenziali che, personalizzate nelle finiture a scelta e combinate con le diverse aperture e tipologie di fianco, propone ogni volta un progetto unico e totalmente sartoriale.

Ciascun elemento **acquapazza** è un manufatto di alta falegnameria.

acquapazza progetta e realizza totalmente in azienda ogni singolo prodotto, con attenzione minuziosa ad ogni dettaglio costruttivo. Garantisce che ogni componete, realizzato utilizzando le innovative tecnologie dei macchinari a controllo numerico, viene rifinito a mano.
Disponibili anche con lavorazioni 3D in 5 finiture: laccato opaco, Fenix® super matt, tranciati naturali di legno e Corian® Solid Surface, ante, fianchi e gole completano le strutture interne realizzate sempre in multistrato marino disponibile in doppia finitura.

22 le finiture di top e lavabi, dai tradizionali colori pieni alle innovative finiture materiche del Corian® Solid Surface.

PLAY with Matter is a furniture program inspired by **acquapazza**'s DNA: sartorialism. A game that starts from the designing offered by the Brand and expresses itself through different geometrical forms, customized finishes and matched with different openings and sides, proposing a unique and totally sartorial project.

Each **acquapazza** product is a high carpentry artifact.

Each **acquapazza**'s product is completely designed and realized inside the company. We take care of every single structural detail and we guarantee hand-finished element realized using the innovative CNC machines technologies. Available in 51 finishes (for matt lacquered even in 3D features): matt lacquered, super matt Fenix® , wood natural veneers and Corian® Solid Surface, doors, sides and grooves enrich the base structure, exclusively made in marine plywood available in double finishes.
22 finishes for top and washbasin, from the traditional full tones to the innovative Corian® material finishes.

PLAY with MATTER

PLAY ALL

Il colore Matt Metallic Bronze del volume da terra sembra alleggerirsi nel riflesso infinito del Maxi Half Ring. Un piano allungato su di un volume che nasce dal pavimento diventano un tutt'uno lasciando entrare l'esterno all'interno.

The Matt Metallic Bronze lacquered tone of the floor volume seems to lighten in the Maxi Half Ring infinite reflection. A stretched top laid on a volume that grow out of the ground and standing as one, the outer becomes the inner.

in scena | on stage:

Matt metallic Bronze | laccato opaco | matt lacquer

Regole del Gioco

Regola 1) ascoltati e ritrova la tua mood board

Regola 2) ora pensa a cosa vuoi ottenere da questo ambiente, vuoi che sia ELEGANTE, PIENO, CROMATICO, DINAMICO, CAPIENTE, SOFISTICATO, ESSENZIALE

Regola 3) ricerca il volume del tuo sistema di arredo_ volume chiuso | a giorno

Regola 4)
> se hai scelto il volume chiuso personalizza: interno cassa_ sponda_cerniera_cassetto unico o doppio affiancato o doppio sovrapposto, per i più esigenti approfondire la gamma accessori interno cassetto.
> se hai scelto il volume a giorno personalizza: finitura mensola e divisorio (qui pensa a cosa vuoi contenerci: creme saponi flaconi grandi o teli)

Regola 5) ora devi scegliere il FIANCO quindi visualizza la tua parete (l'arredo che vuoi comporre è posizionato libero sui lati o in nicchia) n.b. questa è una regola tecnica
consulta le tabelle abbinamenti: FINITURE FIANCHI E FINITURE GOLA
> se libero ascolta solo il tuo gusto e scegli tra COVER SKIN e FORTY5
> se hai una parete di confine scegli tra COVER SKIN

Regola 6) in base al tuo fianco scegli l'apertura (ricordati quello che hai scelto alla regola n.° 4)
> se hai scelto fianco COVER avrai un'apertura PUSH.& PULL
> se hai scelto fianco SKIN avrai un'apertura PUSH.& PULL o GOLA
> se hai scelto fianco FORTY5 avrai un'apertura GOLA

Regola 7) sei al TOP! scegli la tipologia di lavabo: integrato_soprapiano o catino_e abbinaci il top.

Regola 8) ritorna alla regola n.° 1 e vai alle FINITURE perchè ti si apre un mondo di scelta e abbinamenti!

Regola 9) rifletti, accessoria, e rendi iconico il tuo bagno.

Regola 10) se nn sei soddisfatto torna al via e resta fermo 2 giri!

Game Rules

Rule 1) listen to you and find your mood board

Rule 2) now think about what you want to get from this environment, ELEGANCE, ALL, CONTRAST, DYNAMIC, VOLUME, SOPHISTICATED, ESSENCE

Rule 3) find your furniture: closed with door or open

Rule 4)
> If you have chosen furniture with door customize it: interior door side single or double drawer side by side or double superimposed, for the most demanding deepen the drawer interior accessories range.
> if you have chosen the open cabinet customize it: shelf finish and partition (here think about what you want to contain: creams soaps large bottles or towels)

Rule 5) now you have to choose the side of your furniture then view your composition wall (the furniture you want to compose is positioned free wall corners or is closed between walls) this is a technical rule.
consult the matching tables: FINISHES SIDES AND FINISHES GRIP RECESS
> if your furniture is free laterally you can only listen to your taste and choose between COVER SKIN and FORTY5
> if your furniture is closed sideways you can decide between COVER SKIN and FORTY5

Rule 6) depending on the side of the furniture you have chosen, you can match the opening system (remember the one you have chosen to rule n. 4)
> if you have chosen the side of the COVER cabinet you will have a PUSH.& PULL opening
> if you have chosen the side of the SKIN cabinet you will have a PUSH.& PULL OR GRIP RECESS opening system
> if you have chosen the side of the FORTY5 cabinet you will have a PUSH.& PULL OR GRIP RECESS opening system

Rule 7) you are at the TOP! choose the type of washbasin: integrated_over counter_Catino

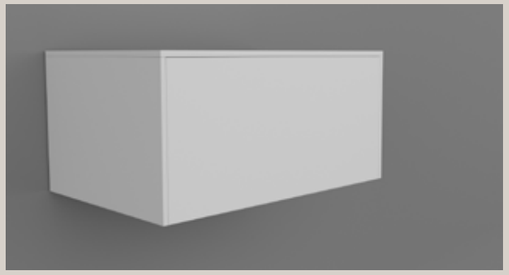

Rule 8) returns to the rule n. 1 and go to the FINISHES because you open a world of choice and combinations!

Rule 9) reflect, accessorize, and make your bathroom iconic.

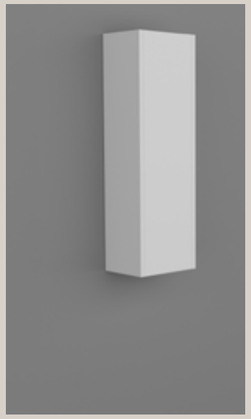

Rule 10) if you are not happy with the project , go back to prison and stop for 2 laps!

I colori venati non possono considerarsi bi-facciali in quanto i due lati della lastra hanno caratteristiche cromatiche diverse.

acquapazza si riserva quindi la possibilità di modificare dimensionalmente alcuni elementi al fine di garantire l'omogeneità del prodotto.

The veined colours have different charatteristics on each side of the sheet. Therefore acquapazza may modify the dimensions of some elements to guarantee the hight quality of the products.
